

## OUR GUARANTEE TO YOU

---

BLUE Missions is extremely proud of our BE BOLD Model, a guarantee to our public supporters where 100% of their donations go directly towards the costs associated with the execution of water and sanitation projects. Every cocktail ticket purchased, public dollar donated, and sponsorship made go directly towards field costs.

BLUE Missions relies on service trip facilitation, angel investors, and private donors to cover our current US operational expenses which allows us to grow our organization.

---

Our immersion trips play a key role in molding global citizens. Trip participants are positively impacted and return home eager to serve their local communities. Volunteers donate their time and pay their own way to serve others. The facilitation of these service trips helps fund a portion of our operational expenses.

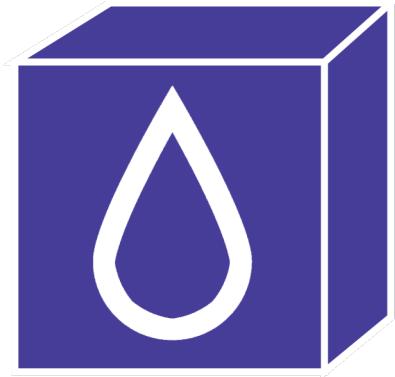

---

Like any startup BLUE needs angel investors.  
Unable to offer stock or monetary gain,  
our angel investors measure their return  
on investment in the number of people  
impacted by BLUE Missions.

# THE TANK SPONSORSHIP

---

The Tank is a membership program where donors give a set amount to our operational costs over a three-year period. Their support allows us to honor our BE BOLD Model, scale operations, and continue to fulfill our dual mission: ending the global water & sanitation crisis and molding global citizens.

## FOUNDATIONS

---

We apply for various grants to fund our local programs.

## IN-KIND GIFTS

---

From office space to t-shirts, no gift is too small. We accept all in-kind donations that help keep our office running and our employees equipped.

## SPONSORS

---

Sponsors are like-minded corporations and individuals willing to do their part in ending the global water & sanitation crisis. Their one time donation covers over-head and other essential operational costs.

# BLUE THANKS YOU!

---

Each of our donors play a key role in the success of our mission. Our goal in implementing the BE BOLD Model is to change the way people view giving. BLUE is extremely proud that we are able to allocate 100% of public donations to the field. This would not be possible without you.

If you are a current donor, we are forever grateful for your support. If you are considering donating towards BLUE's operational expenses, we encourage you to join us as we reinvent charity and change the world one village at a time.
